HASSYAMPA DORM AIR QUALITY ISSUES

The air quality in the Hassyampa dorm rooms does not meet the ASU standard.

The dorm rooms on campus should be a place where students can rest, relax, eat, work, and live healthy college lives.

However, with dirty air ducts and air, this is very difficult to do.

Hassyampa Resident Survey Results

- **Would you benefit from having your air ducts cleaned regularly?**
  - Yes: 90%

- **Have you noticed a decline in your health since moving into the Hassyampa dorms?**
  - Yes: 71%

- **Do you feel the air quality in your dorm room is satisfactory?**
  - No: 71%

Of students surveyed, 75% reported that they have noticed impacts on their health from the air quality in their rooms.
