H2O

What is Our Mission?

We hope to increase the amount of water bottle filling stations on campus.

56% of students believe water quality on campus is not good

On average students are only 2.6 satisfied on a scale of 5

Only 26% of students on campus know there are water bottle filling stations on campus

75% of Americans suffer from dehydration

80% of students believe there should be more water bottle filling stations around campus
