

Support for Survivors of Sexual Assault/Harassment

You are not alone when it comes down to this topic because a lot of people have been in your position. Arizona State does provide a good support system, but we believe they haven't reached their full potential.

The solution that we came up with was to create a designated space on campus for those who are survivors of sexual assault/harassment. We want every survivor involved to feel 100% supported and that they are more than enough.

Of the undergraduate women who are sexually assaulted while in college:

34% are physically forced. 

57% are under the influence of alcohol or drugs. 

4% are given drugs without their knowledge.
