

LAUNDRY ISSUES @ ARIZONA STATE UNIVERSITY

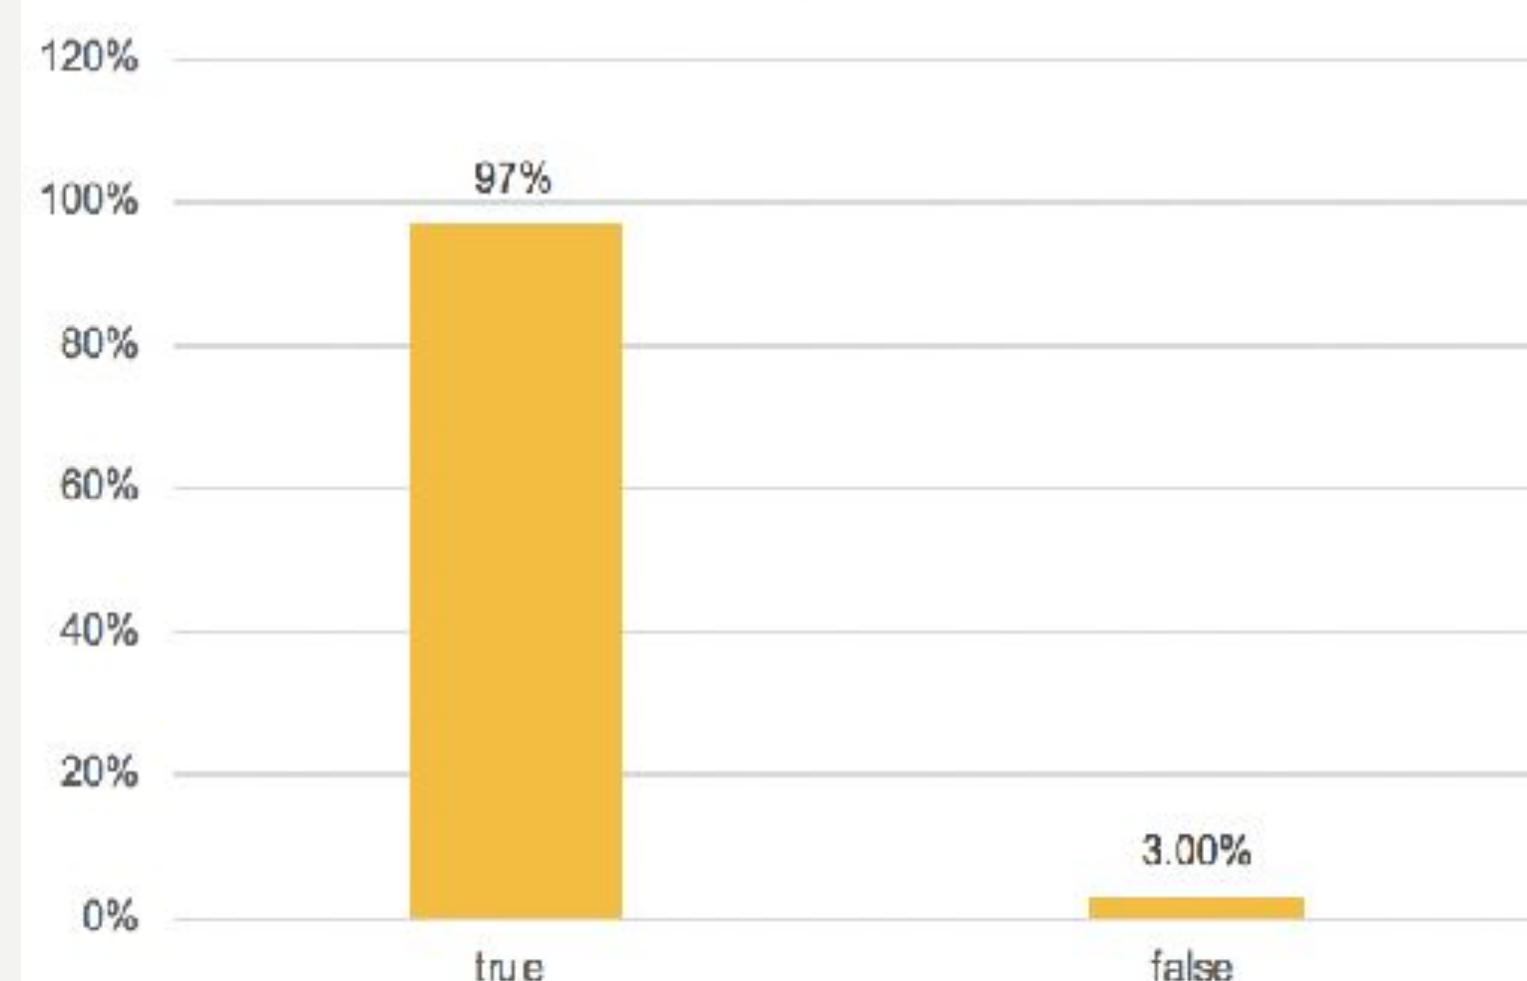

Our group of LEAD students surveyed Arizona State University students who lived on campus about laundry related issues. We want ASU to improve the state of the laundry rooms by upgrading the machines. Below is the data that we collected.

Students were asked to rate the consistent state of the laundry rooms on campus

Students were asked if they believed that the provided laundry rooms on campus should be efficient and usable for all dorm residents.

Students were asked how often they use the laundry rooms
