

Roommate Roulette

The chance for **ALL** incoming students to find their future roomie!

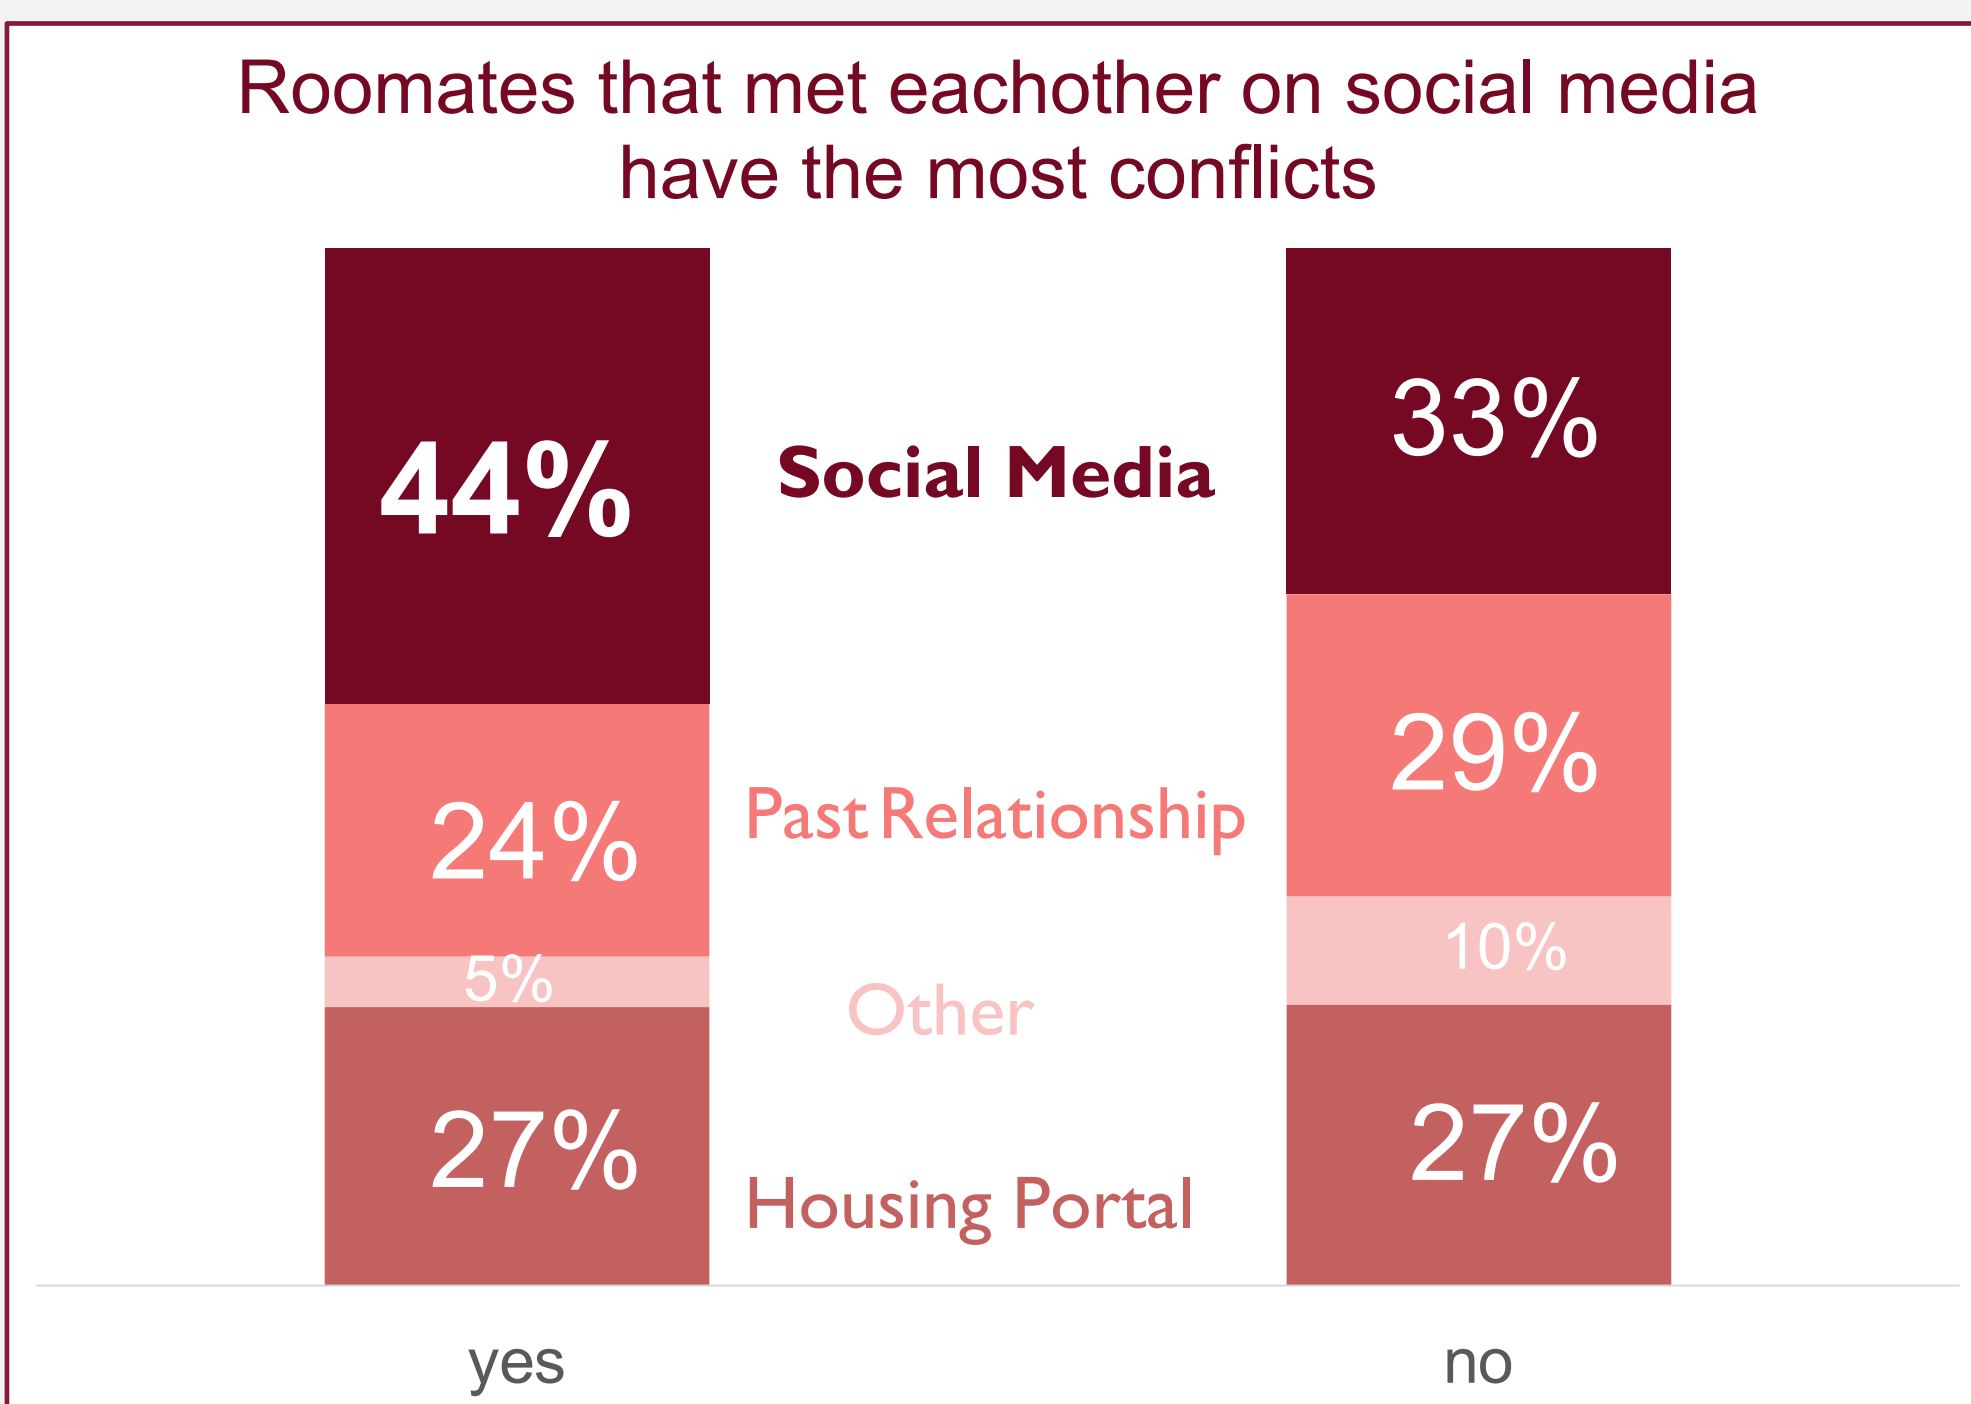

Problem

- Students are having roommate conflicts.
- Adds to their stress and is affecting academic performance.
- They need to meet their roommate before hand.

50%
*of students say that their
roommates add to their
stress.*

44% of students said that they have conflicts with the roommates they met on social media.

Fortunately, **Roommate Roulette** allows students to avoid this problem and meet in person!

Proposal

- To have a meet and greet orientation before the school year starts.
- It will run like speed dating where students will rotate around to meet their potential future roommate.
- Will be held at ASU and supervised by faculty volunteers.

Benefits

- Students will be able to ask their own questions and really get to know who they bond well with.
- This will prevent future problems with roommate conflicts.
- Very easy and gets students comfortable with campus before school starts.
