August 1	2	3	4	5	6	7
8	9	<i>10 Session B Classes End</i>	11	12	13	14

Tips for Success in Online/ASUSync Courses:

- Have a consistent place to ‘attend’ classes and study.
- Make sure space is as distraction free, as possible.
 - Explain your academic schedule to those you live with (so they won’t interrupt you).
- If your courses are online only - still schedule time to ‘attend’ class. Watch the video lectures during this time.
- Take notes! Treat every lecture/video like you are attending in-person. Take notes and review them.
 - These notes can be taken in a physical notebook or using a computer program or app.
- Give yourself breaks from sitting in front of your computer.
- Ask questions of your faculty/teaching assistants/etc.
 - Use your syllabus to see when office hours are scheduled and how to best contact them.
- Use resources provided to you by ASU.
