Taste of Tempe

Problem
- Few sources of inexpensive, fresh produce on campus
- Students are unfamiliar with the wide range of local and seasonal produce
- Students need guidance on how to cook with and use healthy produce

95% of students surveyed want access to fresh produce on campus

Solution
- More convenient access to produce through a CSA delivery program
- Educating the community on how to handle and cook with the seasonal produce
- Increasing access and awareness to improve student and community health

75% of students would buy produce from an on-campus co-op
